## CORRECTION Open Access

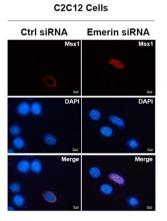

# Correction: Emerin anchors Msx1 and its protein partners at the nuclear periphery to inhibit myogenesis

Zhangjing Ma<sup>1†</sup>, Huiyuan Shi<sup>1†</sup>, Yi Shen<sup>1</sup>, Huixia Li<sup>1</sup>, Yu Yang<sup>1</sup>, Jiange Yang<sup>1</sup>, Hui Zhao<sup>2</sup>, Gang Wang<sup>1,3</sup> and Jinggiang Wang<sup>1\*</sup>

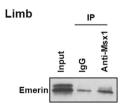

### Correction: Cell Biosci (2019) 9:34 https://doi.org/10.1186/s13578-019-0296-9

In the original version of the article, the authors wish to make the following corrections:

1. The position of DAPI panels in Fig. 4g was reversed. The authors would like to provide a revised Fig. 4g with reorganized DAPI panels.

2. The Emerin blot of Fig. 2c was the unpublished data from the same Co-IP experiment published in Wang et al. [1]. The authors have repeated the Co-IP experiment and would like to provide one of the repeats to correct Fig. 2c.

The correct version of figures is given in this correction.

The original article can be found online at https://doi.org/10.1186/s13578-019-0296-9.
